19,36		Right at junction into brushwood at 19.52 km at junction right in brushwood
20,00	Marano Park	Arrival at Marano Park

4. Towards San Marino

This trip runs exclusively through olive groves and vineyards on the hills of the Riminese hinterland to the foot of the majestic Monte Titano (Republic of San Marino). Starting at Marano park you set out towards the coast and, after only a few kilometres, encounter the first difficult stretch, a small rise near Vecciano lake and then onwards up another very steep hill. At the crossroads to Torraccia you have a fantastic view but continue upwards until you get to via Montelupo. From here you continue on a path along the Aeroclub San Marino area dropping down to lake Faetano, then cross the provincial road and follow the bike path towards Rimini.
